

# Dataliner®

Ref.052222

## GYSPOT 39.04

The GYSPOT 39.04 is a 400 V steel dent puller with 3800A output current, ideal for all steel straightening and dent pulling jobs.

Easy to use with its automatic gun and its simple control panel.

### EASY TO USE

#### Only 2 parameters to select

- the output power (amongst 11 levels)
- the tool used (amongst 7 tools)

=> No need to select the welding current and welding time anymore.

#### Automatic triggering

The welding is triggered automatically by a simple contact between the tool and the part to straighten.

MADE in FRANCE

### READY TO USE

- ✓ Earth cable 70 mm<sup>2</sup> (2m long cable)
