

Single phase full size 180A MIG/MAG welding unit. Ideal for general workshop use. Perfectly suited for non intensive work for assembly, repair maintain steel, stainless steel or aluminium section or sheet. Easy to use intuitive « SMART » control panel.

MIG PROCESSES: 2 IN 1

- GAS: Ø 0.6 - 1mm wire.
- No GAS: for outdoor welding with a Ø 0.9 – 1.2mm wire.

SMARTMIG 182

PROFESSIONAL ACCESSORIES

- Supplied with 150A torch (length 3m).Euro torch connection for easy wire and liner change
- Powerful 40W motor for a smooth and constant wire speed
- For use with Ø 200mm (5kg) and 300 mm (15kg) wire reel

ENERGY EFFICIENT AND CONVENIENT

- Low current consumption, pluggable on a single 230V – 16A socket, (13A in UK)
- It can be used on a 6KVA generator.

Machine with accessories – ref.033184
MIG Torch 150A 3m and earth clamp 3m.
(Flowmeter not included).

SMART CONTROL PANEL

Ideal settings are indicated, just select the type and diameter of wire used, then the thickness of the metal.
The SMART control panel makes it easy to set the voltage (4 positions) and the wire speed.
