

MIG  
Three-phase

30 ▶ 180 A

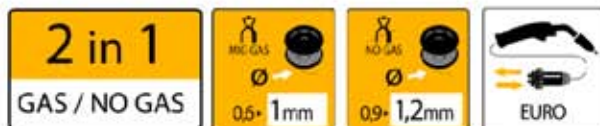

# Dataliner®

## SMARTMIG 183

Single phase full size MIG/MAG welding unit. Ideal for general workshop use. Perfectly suited for non intensive work for assembly, repair maintain steel, stainless steel or aluminium section or sheet. Easy to use intuitive « SMART » control panel.

### MIG PROCESSES: 2 IN 1

- GAS: Ø 0.6 - 1mm wire.
- No GAS: for outdoor welding with a Ø 0.9 – 1.2mm wire.

### PROFESSIONAL ACCESSORIES

- Supplied with 150A torch (length 2.20m).Euro torch connection for easy wire and liner change
- Powerful 40W motor for a smooth and constant wire speed
- For use with Ø 200mm (5kg) and 300 mm (15kg) wire reel

### ENERGY EFFICIENT AND CONVENIENT

- Low current consumption, pluggable on a threephase 400V– 10A socket, (13A in UK)
- It can be used on a 4,2KVA generator.

### SMART CONTROL PANEL

Ideal settings are indicated, just select the type and diameter of wire used, then the thickness of the metal.  
The SMART control panel makes it easy to set the voltage (4 positions) and the wire speed.

Machine with accessories – ref.033412  
MIG Torch 150A 3m and earth clamp 3m  
(Flowmeter not included).

Intuitive setting thanks to a system of letters and colours combination
