

**MIG**  
Heavy Duty  
3-PHASE

**40 > 350A**

**MAGYS 350-4**

**Dataliner®**

The **MAGYS 350-4** is a « synergic » 3-Phase, Compact MIG/MAG welder. Its heavy duty construction and high duty cycle make it ideal for industrial environments welding steel, stainless-steel and aluminium. Equipped with a 70W wire feeder and 4 drive rollers, it is perfectly suited for intensive works up to  $\varnothing 1.2$ .

4 MODES

■ **2T / 4T**

- **Spot:** Welding with adjustable spot diameter
- **Delay:** Intermittent welding mode

SYNERGIC OR MANUAL

More than 1000 parameters managed by micro processor.

■ **Synergic mode:** Optimum results with the MAGYS controlling the wire speed. Just set:

- The wire type
- The wire diameter
- The power, with its two switches

**MAGYS 350- 4** will automatically control:

- Optimum wire speed
- The pre-gas / post-gas
- Burn back

■ **Manual mode:** Enables manual control of the wire speed.

HEAVY DUTY DESIGN AND ENGINEERING

- Robust build to suit industrial requirements
- Gas bottle support up to 10m<sup>3</sup> (50l)
- 4 eye bolts for lifting the machine
- Large heavy duty reinforced wheels for good mobility

Unit supplied without accessories – ref.033900

COMPREHENSIVE AND INTUITIVE INTERFACE

■ **Material Thickness Test Function**, the MAGYS will show the thickness you can weld according to the parameters set.

■ **20 positions** to enable precise settings from 40A to 350A

■ **Arc control:** Manual or automatic adjustment of the arc to optimize its stability minimising splatter according to the metal and to the gas used.
