

**TRADITIONAL WELDING MACHINE FOR REGULAR
USE**

- ❖ Power input: Single phase 230V – 50/60Hz
or 3 phase 400V – 50/60Hz
- ❖ Accepts welding electrodes from Ø2 to 4 mm
- ❖ Very easy-to-use
- ❖ Strong ventilated steel casing
- ❖ Setting by turning the knob
- ❖ Portable
- ❖ Thermal overload protection
- ❖ Selectable welding output power up to 220A

REF. 015128

1 x
Mono/ Tri-phase
connection

1 x earth clamp
1.50m

1 x electrode holder
1.50m

1 x
Hammer/brush

1 x Hand mask
